DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 43 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Claim 43 recites the limitation "the bore" and "said stanchion." There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 38-43 are rejected under 35 U.S.C. 102(b) as being anticipated by Black (5,870,806). Black discloses each and every element of these claims including, *inter alia*, a resilient element with a central, margin and head structure, wherein the margin portion (712) is thicker than the central portion (see Figs. 7A-D).
6. Claims 44-45 are rejected under 35 U.S.C. 102(b) as being anticipated by Underwood (2,385,429). Underwood discloses, either explicitly or inherently, each and every element of these claims including, *inter alia*, a "resilient element" which is interpreted to include elements numbered 6, 10, 11, 12, and 13 as seen in Fig. 1.

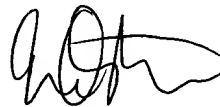

Allowable Subject Matter

7. Claims 1-37 are allowed.
